

Qaisar Hayyat

Passport: JT6171301 **Nationality:** Pakistani **Date of birth:** 13/03/2003

Place of birth: Okara, Pakistan **Gender:** Male

Phone number: (+92) 3040341417

Email address: qaisarhayyat2@gmail.com

Other: Chak no. 17/GD okara, 56250 Okara (Pakistan)

ABOUT ME

Research-focused plant breeding graduate with training in *molecular techniques*, *biometric analysis*, *genome-wide analysis*, and *field-based breeding trials*. Interested in *quantitative genetics*, *crop improvement*, *molecular breeding*, and *bioinformatics applications* in agriculture.

WORK EXPERIENCE

Chief Minister Internship Program, Government of Punjab – Okara, Pakistan

Intern

[15/09/2025 – Current]

- Participating in the *Chief Minister Internship Program* to gain professional experience in public sector development and governance.
- Supporting activities related to agricultural research, environmental sustainability, and rural development initiatives.
- Assisting in data collection, reporting, and documentation for departmental projects.
- Collaborating with senior officials and researchers in implementing development programs.
- Enhancing skills in project coordination, communication, and applied research for sustainable agriculture and grassland management

Internship in Plant Breeding & Genetics Four Brothers Company – Lahore, Pakistan

Website: https://4bgroup.com/

Intern

[19/02/2025 – 19/04/2025]

- Assisted in hybrid seed development and breeding trials.
- Conducted genetic analysis and laboratory research.
- Worked on crop improvement programmes for high-yield varieties.
- Analysed biometric data for genetic traits.
- Collaborated with senior researchers on field trials.

EDUCATION AND TRAINING

M.Sc. (Hons.) Plant Breeding & Genetics (PBG)

Faculty of Agricultural Sciences, University of the Punjab [10/09/2025 – Current]

City: Lahore | **Country:** Pakistan | **Website:** https://www.pu.edu.pk/

B.Sc. (Hons.) Agriculture Sciences - Plant Breeding & Genetics (PBG)

Faculty of Agricultural Sciences, University of the Punjab [01/06/2021 – 01/06/2025]

City: Lahore | **Country:** Pakistan | **Website:** https://www.pu.edu.pk/ | **Final grade:** CGPA: 3.40/4.00 (Percentage 77.52% Grade= B+) | **Level in EQF:** EQF level 6 | **NQF Level:** 6 | **Thesis:** Recent Advances in Agricultural Biotechnology and Bioinformatics for Life Sciences Research

-Major Subjects in BSc (Hons) Agriculture Sciences - Plant Breeding & Genetics (PBG)

1. Agronomy (Crop Production & Management)
2. Soil Science
3. Plant Pathology (Diseases & Control)
4. Entomology (Insects & Pest Control)
5. Horticulture (Fruits, Vegetables, & Floriculture)
6. Agricultural Biotechnology
7. Agricultural Economics & Extension
8. Principles of Genetics
9. Plant Breeding Techniques
10. Molecular Genetics & Biotechnology
11. Cytogenetics
12. Quantitative & Population Genetics
13. Seed Science & Technology
14. Biometrical Techniques in Plant Breeding

Intermediate (FSc Pre-Medical)

Punjab Groups of colleges Okara [03/03/2019 – 03/03/2021]

City: Okara | **Website:** https://pgc.edu/campus/okara/ | **Final grade:** Marks:1055/1100 (Percentage = 95.9%, Grade = A+)

Major Subjects in Intermediate (FSc Pre-Medical)

1. Biology
2. Chemistry
3. Physics

Curricular Activivties

- Attending lectures & labs
- Completing assignments & projects
- Taking exams & quizzes
- Conducting research
- Participating in academic competitions (like Science Olympiads)

Co-Curricular Activivties

Leadership & Personality Development

- Student Council & Leadership roles
- Event organizing & management
- Public speaking & writing competitions

LANGUAGE SKILLS

Mother tongue(s): Punjabi | Urdu

Other language(s):

English

LISTENING C1 **READING** C1 **WRITING** C1

SPOKEN PRODUCTION C1

SPOKEN INTERACTION C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Social Media / basic skills in graphic (canva) / Microsoft Office package: Microsoft Word, Excel, PowerPoint, Access / Excellent use of GGE biplot software / Plant breeding strategies / ArcGIS Desktop/ Pro (advanced) / genetics

TRAINING/WORKSHOPS

[18/11/2024 – 22/11/2024]

Biochemical and Molecular Techniques in Plant Breeding

- Completed comprehensive the 13th training course on "Biochemical and Molecular Techniques in Plant and Breeding" in "Nuclear Institute for Agriculture and Biology".
- Gained hands-on experience extraction of DNA and proteins, Non denaturing and denaturing Gel electrophoresis and of proteins and DNA, amplification of RAPD, SSR, SCAR, URPs, electrophoretic and staining, techniques for amplified DNA fragments, extraction and quantification of anti-oxidants and stress biomarkers, marker and descriptive and data analysis and interpretation
- Demonstrated proficiency in PCR primer designing and bioinformatics tools
- Strong organizational and time management abilities through daily responsibilities and projects.
- Received certification for successful completion of the training program, demonstrating commitment to professional development.

[03/02/2025 – 03/02/2025]

Certificate of Participation

Hands-on Training Workshop on Effective CV Writing and Mock Interview Strategies

Department of Plant Breeding and Genetics, Faculty of Agricultural Sciences, University of Punjab, Lahore.

[26/03/2025 – 26/03/2025]

Workshop to mark and celebrate World Water Day

This workshop on **March 26, 2025**, organized by **Save Our Society Foundation and Center of Excellence in Molecular Biology, University of the Punjab,** was likely focused on water conservation, climate resilience, and sustainable practices.

[10/06/2024 – 10/06/2024]

2 days Hands-on Training on In-Silico Genome Wide Analysis

Experienced in **genome-wide data analysis**, utilizing bioinformatics tools and **in-silico methods for plant breeding research.** Proficient in computational techniques for interpreting genomic data and enhancing precision breeding strategies.

[20/04/2025 – 20/07/2025]

3 Months Hands-on Training on In-Silico Genome Wide Analysis

Duration: 20 April 2025 – 20 July 2025

Organized by: Department of Horticulture, University of the Punjab, Lahore

Summary:

This training focused on computational approaches to genome-wide analysis in plants. Participants gained practical experience in genome data mining, gene annotation, motif identification, sequence alignment, and phylogenetic analysis using various bioinformatics tools and databases. The training enhanced participants' skills in applying in-silico techniques to study gene function, expression, and evolutionary relationships relevant to horticultural crops.

RECOMMENDATIONS

Name: Dr. Muhammad Ashfaq | Professor and HOD Department of Plant Breeding and Genetics
I have known this candidate for several years as his professor, and I strongly recommend him for excellence consideration due to his outstanding academic performance and research potential.
Email: ashfaq.iags@pu.edu.pk | **Phone number:** (+92) 3216462690

Name: Dr. Qurban Ali | Asistant Professor
I have had the pleasure of knowing this candidate as his professor for several years, and he has consistently demonstrated excellent academic ability and strong dedication to his studies. I highly recommend him for consideration for an excellence opportunities.
Email: qurbanali.pbg@pu.edu.pk | **Phone number:** (+92) 3219621929
